About Us

Established in 2008, Shree Om Sai Packaging is a leading steel cable drum manufacturing company based in Alwar, Rajasthan. We operate 4 manufacturing units (3 in Alwar, 1 in Reengus) with a monthly capacity of 450-500 metric tonnes, producing approximately 1500 drums per month.

Our mission is to revolutionize the cable drum industry by replacing traditional wooden drums with durable, eco-friendly steel cable drums that are 100% recyclable and reusable up to 3 times.

Product Range

Corrugated Steel Cable Drum

Ribbed corrugated design for exceptional strength-to-weight ratio. Ideal for high-tension cable winding and heavy-load transport. Replaces traditional wooden drums.

Process Drum

Specialized heavy-duty steel containers for in-house cable twisting, sheathing, and extrusion lines. Galvanized framework for enhanced stability.

MS Tie Rod

High-strength mild steel tie rods for drum assembly and structural bracing. Galvanized finish for superior corrosion resistance.

Hybrid Drum

Combines steel strength with engineered materials for lightweight durability. Excellent impact resistance in varied conditions.

Export Drum

Manufactured to international export standards. Engineered for safe ocean freight and container loading with optimum weight design.

Refurbished Drum

Cost-effective reconditioned drums. Thorough inspection and restoration to extend lifecycle and reduce packaging costs.

Certifications & Recognition

- ISO 9001:2015 — Quality Management System (TUV Rheinland)
 - ISO 14001:2015 — Environmental Management System (TUV Rheinland)
 - ISO 45001:2018 — Occupational Health & Safety (TUV Rheinland)
 - ZED Gold Certification — Zero Effect Zero Defect (1st in India for steel cable drums)
 - State Safety Award 2022, 2023 & 2024 — Factories & Boilers Dept., Rajasthan
 - MSME Recognition
-

Manufacturing Capacity

- Monthly: 450-500 MT (~1500 drums)
 - Daily: 45-50 drums
 - 4 units: 3 in Alwar + 1 in Reengus
 - USP: On-time delivery — first choice for order booking
